GROUPE ALCEN

e-mail : alynox@alynox-alcen.com

ALYNOX is a subsidiary of Alcen group and a manufacturer of hydroformed fittings and / or cold formed and machined fittings for applications with a **high quality level**.

ALYNOX 是埃克森集团的一个子公司，一个高质量水准的液压成形管件及/或冷成形管件制造商

ALYNOX uses a special technique of hydro-forming (patented) for making fittings. They are made from seamless standard pipe and have the thickness of reinforcement required by code RCC-M, ASTM and NF-EN.

ALYNOX公司在制造无缝管件方面使用一种特殊的液压成形技术（专利）。这些管件均由无缝标准管制做而得，且符合RCC-M、ASTM 和NF-EN标准加固厚度的要求。

This technology differs from others used on the market by:
这项技术不同于市场上所提供的其它技术，主要体现在：

The control of thickness, 厚度控制

Seamless fittings, 无缝管件

Using the same tube as the one installed upstream and downstream connections, 上下衔接安装使用的为同一管件。

Geometric flexibility. 几何形灵活性

The high level of quality is validated by certifications since 1993 and **ALYNOX** implements a system of quality management **ISO 9001 V2008** for all its design activities, manufacturing and technical trade following:

ALYNOX公司的高质量产品自1993年来就已经通过认证得以确认。另外，公司也在设计、制造和贸易技术上适用2008版ISO 9001质量标准体系：

RCCM, RCC-MX, NF-EN, ASTM, ANSI ...

ALYNOX uses qualities plans to meet the requirements of its customers and maintains a watch on the set of standards and codes applicable in its field. To manage its manufacturing, **ALYNOX** is equipped with performance monitoring tools to ensure total quality and full traceability of products supplied.

ALYNOX公司实施高效策略以满足客户的需求，并且保持领域中各类准则和标准的适用。在生产管理上，**ALYNOX**公司配备了高性能的监控系统，从而确保提供优质且可以进行全程追踪的产品。
